The machinery has all been imported from Europe and is of the newest and best description in use in London. SHANGHAL. (News.)

It is only a day or two since we had the pleasure of drawing attention to the circumstance of a New Dock having been constructed at Shanghai, as a sign, not only of progress and prosperity, but as showing confidence in the well-being of the Settlements on the part of men of means as well as of judgment and prudence in the investment of capital. Messrs S. C. Farnham and Co., the proprietors of the Old Dock, are also making due preparations for the future growth of their operations by the erection of a new boiler shed on the west side of the dock. It is 137 feet long, 58 feet wide and 20 feet high in the clear, the total height being 34 feet. There will be two wings. 21 feet wide, one of which will be 25 feet longer than the shed, the. other only 57 feet in length. It is currently reported that Pan Ts'an, the general in command, trusts more to native weapons and modes of warfare than to any European innovations, of which he knows very little. Pan Ts'an's history is one of those marvellous stories which the Chinese are ever foul of narrating. He has risen to his present high position from the obscurest poverty simply by his personal character and great courage. He is supposed to be invulnerable, and according to a common notion of the Chinese, is the incarnation of the Tiger star. And of these, 2,500 were intended for cavalry rogiments, their horses to be provided when they arrived at Tientsin. There was no difficulty in recruiting men for either lufantry or cavalry. THE CHINA REVIEW.

THE widely-expressed regret at the discontinuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter. The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Manners and Customs, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects | The Clock Tower, Queen's Road Cenupon which contributions are especially invited is incorporated with each number. Original contributions in Chinese, Latin, French, German, Spanish, Italian or Portuguese, are admissible. Endeavours are made to present a resume in cachnumber of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review department.

Notes and Replies are classified together as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The Thing Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compute for the best paper on the advantages of the Christianity for the development of a State. All our learn--ed societies should subscribe to this scholarly and enterprising Review. It is a sixty paged, bi-monthly, repertory of what scholars are ascertaining about China. The lecture on Chinese Postry in this volume is alone worth the price of the heview. Attdress China Review, Hougkong.-Northern

Christian Advocate (U.S.) Trubuer's Oriental Record contains the following notice of the China Review :- "This is the title of a publication, the first number of which has lately reached as from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. Thepresent publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of avtention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say Queen's Road Central. ne hing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services; the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is new assiduously cultivated, and who are severally represented in the first number of the Acricio by papers highly creditable to their respective authors. In a paper on Er. Legge's She King, by the Rev. E. J. Eitel, to which the place of bonour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Obinese novels and plays are marked by both securacy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also
